Hi all,

I would like to propose for our last Friday meeting a resolution that the SBCC Registrar's Office will release a yearly document with the grade distributions for each credit class, giving students a more holistic view when searching for classes. Schools that do this include Santa Monica College, UCLA, Indiana University, Alabama...

This could be very very very beneficial for students in the future. I could not imagine any students in opposition. The Academic Senate for CCC opposes it, but obviously they would.

Thanks,
Matt Esguerra
